

Simplify your budget planning

BDG ONE | FINANCE

Have you ever thought about why the regular financial budget season spans over three months? It's because Controlling and FP&A departments have to walk a tightrope between accuracy and timely completion as they often rely on a variety of spreadsheets. What falls short is the flexibility to react to today's VUCA world with its rapid market dynamics.

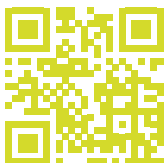

With bdg ONE | Finance, you get accuracy and speed. The solution enables Controlling and FP&A to be more effective and efficient, while providing a consistent, integrated financial budget in a much shorter time. Moreover, it can calculate complex scenarios rapidly.
